# スタートページからLog in

The screenshot shows the Audi erWin Webshop homepage. The browser address bar displays `erwin.audi.com/erwin/showHomeIntermediateLogin.do`. The page features a navigation menu on the right with the following items: Start screen, erWin Product Assistant, Vehicle-spec. information, Repair information in PDF format, Mail article, Workshop fittings, Real Driving Emissions, Audi Training Online, Things worth knowing, Purchase history, Invoices, and Registration. A 'Login' dropdown menu is open, showing 'Logged on as automech' and options for 'Log off' and 'Change password'. The main content area includes a 'Shopping cart' section with 'Article: 0' and 'Total: 0,00 C', a 'Search' section, and a 'Left' sidebar with 'Contact' and 'Flatrate' options. The main text area contains a welcome message, contact information, and a list of flatrate options.

Welcome to the erWin Webshop.  Vorsprung durch Technik

HelloMakotoSakakibara,

We are glad to see you using erWin.

If you have any questions, contact us online (via "Help" and "Contact") or by telephone at: [+49 \(0\) 180 512 60 00](tel:+4901805126000) (€0.12/min. based on every 30 seconds or part thereof).

**A short piece of information for you:**

The erWin flatrate will secure your access to the Online Service Information at the fixed price. You can choose the period of validity yourself to suit your own requirements:

- one hour with printing rights (screenshot only) (€5.00)
- one day with printing rights (€25.00)
- one week with printing rights (€38.00)
- 30 days with printing rights (€310.00)
- 365 days with printing rights (€2850.00)

We wish you every success with erWin.

In order to ensure that the selected flatrate information offers you all the information you require, you can view the table of contents of the workshop manuals before purchasing a flatrate. To do so, enter your model data in the search and check the results list via the Content PDFs that are offered.

▶ **Vehicle-specific information**  
Entering a valid vehicle identification number (VIN) will allow you to view all important vehicle data, such as the model, model year, engine code etc. You can now retrieve the necessary "Repair and service information" for this data. Please note that you can only view the content of the documents with a valid flatrate.

▶ **Repair information in PDF format**  
You can find repair information in PDF format from the manufacturer via the search function.
